

Flight Information File 2007-46

SUBJECT: HEADSET RENTAL

DATE: December 11, 2007

The College maintains a few headsets that can be checked out on an emergency basis. Due to the College's headsets being checked out on a routine basis and the wear and tear this is causing, maintenance is required more often. Effective Jan7, 2008 a \$5 rental fee will be assessed to help keep these headsets in good working order.

This fee can be paid by charging it your flight account, cash, or by credit card. Something of value will be required to be left as collateral during the flight.

To prevent a rental charge for every flight you can purchase one of the several different types of headsets that Dispatch is able to order for you. This is also a great time of the year to hint that a new headset would be an excellent gift.
