**Directions:** In order to maintain an effective training schedule for all flight students, please choose your top 5 flight slots in order of preference. Keep your choices in mind while registering for other classes as your flight slots will be a part of your class schedule. When selecting your flight slot please consider your transportation needs and travel time from Kalamazoo/Battle Creek. If anticipating bus use, please reference the applicable bus schedule on the College of Aviation's website before you select your times.

Note: Our best effort will be made to give everyone the highest priority possible for their core flight slots. Additional slot(s) will be arranged with the flight instructor closer to the start of the semester.
