

How are transfer grades handled?

- Grades do not transfer from other colleges/universities so the grade does not become part of your Western GPA.
- The Western GPA is calculated only from courses taken at WMU.
- WMU only accepts transfer courses when the grade earned was a 'C' or better.
- Credit may be given for a course taken at another institution, providing the earned grade is a "C" or higher.
- Please note: If you receive an "E" in Math 1140 at WMU and repeat the course at KVCC and receive a "B", you will receive credit for Math 1140. However, the "E" earned at Western will be calculated into your GPA.
- You may find transfer credit equivalencies for Michigan Community Colleges at <http://homepages.wmich.edu/~kritzman>
