**Key Accomplishments**

Key role in doubling NDRI's revenues over the last decade in a highly competitive funding environment, by diversifying funding sources and improving quality of federal funding applications.

Created a new Center for the Study of Addictions and Recovery at NDRI to advance knowledge and practice in this important area.

Awarded 15 health services research grants as Principal Investigator from the National Institutes of Health.

Developed and led outcome evaluations of several innovative therapies and intervention for substance users, i.e., a cognitive-behavior therapy for patients dually dependent on opioids and cocaine; a motivationally-enhanced group outpatient therapy; a methadone maintenance program for sentenced jail inmates; a community re-entry model for substance users released from prison; an HIV prevention model for women and adolescent jail inmates; a medical van outreach program for homeless drug users; a theory-based vocational rehabilitation program for methadone patients; and a low threshold case management and counseling model for drug users served by urban soup kitchens.

Selection of the Rikers Health Advocacy Program (RHAP) by the federal Centers for Disease Control (CDC) as a Recommended Evidence-Based HIV Prevention Program (2001).

Major medical informatics initiative to help develop and lead the NIH-funded outcome evaluation of a computer-based algorithm that operationalized the American Society of Addiction Medicine's Patient Placement Criteria.

Conducted multi-site study relating program quality to patient outcomes for methadone maintenance treatment.

Conducted the first outcome evaluation of methadone maintenance in a correctional setting.

Initiated the first outcome evaluation of buprenorphine maintenance in a correctional setting.

Major outcome study of a national 12-Step self-help program for persons dually diagnosed with severe mental illness and chemical dependency (Double Trouble in Recovery); under review for certification by SAMSHA's National Registry of Evidence-based Programs and Practices (NREPP).

Presented evidence demonstrating positive outcomes of the Family Rehabilitation Program (FRP) for drug-addicted parents with young children at New York State legislative hearings in 1996, which helped save public funding for this New York City-wide program.

Created and directed a national project to develop new outcome measures for the child welfare services, resulting in a book published by the Child Welfare League of America (1986).

Edited special journal issues on *Experimental Therapeutics in Addiction Medicine*, *Program Quality in Substance Dependency Treatment*, and *Contemporary Vocational Rehabilitation for Substance Users*.

Led the writing, budgeting and submission of funding requests for 9/11 Disaster Relief Supplements to the National Institutes of Health, totaling over \$3M for 25 projects.

As Acting Executive Director/CEO, received upgrade in NDRI's Dun & Bradstreet rating from 3A3 to 3A2 - "good credit."

Selected for inclusion on Institute for Scientific Information's (ISI) national Highly Cited author list (2006).

National reputation in innovative health services and treatment outcome research.

**Professional Experience**

*Western Michigan University, Kalamazoo, MI*  
Director, The Evaluation Center

7/2007 - present

*National Development and Research Institutes, Inc (NDRI), New York, NY*  
Director of Science and Research

1/2005- 7/2007

Chief scientist and second-ranking administrator at NDRI, a \$23M national biomedical clinical research, training and outreach services organization with 210 staff, funded through competitive grants/contracts from the National Institutes of Health (NIH); other federal, state and local agencies; private foundations; and corporations. The staff is multidisciplinary and culturally diverse. Takes lead in the scientific direction of NDRI and establishing institutional research priorities in collaboration with Directors of 10 component Institutes/Centers - Institute of AIDS Research, Center for AIDS Outreach and Prevention, Institute of Treatment and Services Research, Institute for Special Populations Research, Center for the Integration of Research and Practice, Institute for Research on Youth at Risk, Institute for Community-Based Research, Center for Therapeutic Community Research, Center for Research on Addictions and Recovery and Training Institute. Seeks out and develops potential new funding sources. Oversees development of new applications for grants/contracts by NDRI staff. Supervises pre- and post-award grant administration. Ensures compliance with NIH Grants Policy Manual and all human subjects protection requirements, e.g., OHRP, HIPAA. Serves as NDRI's Scientific Integrity Officer. Serves on federal grant review panels. Mentors scientists to become new Principal Investigators and to complete Ph.D. dissertations. Reports directly to Executive Director/CEO.

*National Development and Research Institutes, Inc., New York, NY*

Deputy Executive Director

7/2001- 12/2004

Assisted the Executive Director/CEO in supervision of ten Institute/Center Directors (see above) and six Administrative Directors. Supervised Grants/Contracts Administration that supports Institutes/Centers in preparing funding applications including direct cost budgets. Oversight responsibility for direct cost expenditures of \$16-18M annually for 65-70 ongoing grants/contracts. Collaborated with Executive Director and Comptroller in preparing annual \$6M indirect cost (F&A) budgets, preparing for annual federal/state audits, and ensuring organizational compliance with OMB Circulars A-133 and A-122. Supervised negotiation of administrative and budgetary issues in grant/contract awards from federal agencies (NIH, SAMHSA, CDC) and other funders. Supervised preparation of program subcontracts and consultant contracts. Ensured compliance with NIH Grants Policy Manual and all human subjects protection requirements, e.g., OHRP, HIPAA. Served as NDRI's Scientific Integrity Officer. Served on federal govt. advisory panels. Mentored scientists to become new Principal Investigators. Chaired Search Committees for senior staff hiring. Participated in planning and implementing infrastructure upgrades. Supervised upgrading/improving computerized management information system, project budgeting system and web site. Participated in union contract negotiations and replying to grievances. Participated in obtaining training contracts and developing selected training courses. NDRI's Dun & Bradstreet rating upgraded in 2003 from 3A3 to 3A2, i.e., "good credit." Reported directly to Executive Director/CEO.

*National Development and Research Institutes, Inc., New York, NY*

Executive Director/CEO (Acting)

8/2003 – 10/2004

Chief executive responsible for managing a national behavioral and biomedical clinical research, training and outreach services organization specializing in public health; innovative treatments for chemical dependency; HIV/AIDS treatment and prevention; Hepatitis C; clinical trials and related social and biomedical issues, consisting of 210 professional staff with annual revenues of \$23M, all in highly competitive grant/contract funding. Direct supervision of ten Directors of the ten component Institutes/Centers (see above). Direct supervision of six Directors of Administrative Services including Comptroller/Accounting, Human Resources, Facilities and Administration, Grant/Contract Administration, Information Technology and Information Resources. Accomplishments include: Guided Institute/Center Directors and senior staff to maintain high level of quality grant/contract applications; developed balanced \$6M indirect cost budget for FY04; obtained first NDRI contract from a pharma for medication studies; developed new state of the art organizational web site; created a new Center on Addictions and Recovery; received upgrade in NDRI's Dun & Bradstreet rating from 3A3 to 3A2, i.e., "good credit."

*National Development and Research Institutes, Inc., New York, NY*

Director, Institute for Treatment and Services Research (ITSR)

1992 – 2001

Managed an Institute staff of 40+ professional and support employees. Exercised financial oversight responsibility for multiple federal projects totaling \$4.5M (\$7M in current dollars) in annual costs. Supervised ITSR senior staff

in adhering to federal requirements for the conduct of grants and reporting of study progress. Collaborated with state and local government agencies on research projects; helped negotiate subcontracts with government agencies, universities, medical schools and community-based organizations. Served on federal government advisory panels. As an NIH-funded **Principal Investigator**, developed and evaluated new model treatment and prevention programs, including: specialized HIV prevention programs for former injection drug users released from prison on parole; evaluation of an in-jail methadone maintenance program at Rikers Island, NYC; creation and evaluation of in-jail HIV prevention programs for women and male adolescent offenders at Rikers Island; creation and evaluation of an innovative cognitive-behavioral cocaine treatment model; evaluation of a comprehensive services model for drug-addicted mothers with infants and young children (child welfare; domestic violence); evaluation of medical van outreach to homeless drug users; creation and development of a low threshold case management and counseling model for drug users served by urban soup kitchens; development and evaluation of a peer mentoring preventive intervention for early adolescents in HIV-affected families (youth at risk); development of a case management model for street-based female sex workers; facilitation of hepatitis C services in drug abuse treatment programs; facilitation of chemical dependency treatment for HIV+ patients; creation and evaluation of a motivationally-based, outpatient drug/alcohol counseling program; and a major study of a nationally-disseminated 12-Step self-help program for persons dually diagnosed with severe mental illness and chemical dependency (Double Trouble in Recovery).

*National Development and Research Institutes, Inc., New York, NY*

Deputy Director for Research

1989 – 1991

Identified new funding opportunities and worked with senior staff to develop competitive grant/contract applications. Supervised project budgeting and monitored grant expenditures for the organization.

*National Development and Research Institutes, Inc., New York, NY*

Senior Project Director

1984 - 1989

Managed or co-managed service projects and program evaluations, including collaborations with local and state public agencies, community-based drug abuse treatment and HIV/AIDS prevention programs. Extensive multi-project and multi-site management, staff supervision and budgeting experience.

*Child Welfare League of America, Washington, DC.*

Program Director

1979 - 1984

Developed and directed national field tests of three new program evaluation instruments: the Child Well-Being Scales, the Parent Outcome Interview and the Residential Care Follow-up Interview (resulting in a book).

*New Jersey Division of Youth and Family Services, Trenton, NJ*

Senior Program Development Specialist

1974 - 1979

Designed and directed two NJ statewide "random moment" surveys of 1000 caseworkers to determine service activities and effectiveness. Participated in developing a new work force planning and productivity model for the NJ DYFS Budget Office; *results presented at legislative budget hearings*. Led the evaluation of a statewide case review model for foster care in the child welfare system.
