Immediate need in Detroit, MI for 5 Mid-Level Providers. The client is eager to do interviews and would like to start someone in the next 3-4 weeks.

We are working with a client paying \$55-60/hr in Detroit area to perform preliminary assessments for an insurance outreach program. All appointments are scheduled and done in-home. This is a proactive preventative measure to reach out to members that may not seek medical attention when needed until their condition worsens and an Emergency Room visit is imminent. This program is offered in hopes to improve patient outcomes and cost of care. Provider will be performing physicals and assessments only - no treatments, labs or procedures. Flexible scheduling offered for 3-4 days per week. Provider will need their own vehicle to travel to and from appointments however mileage reimbursement is available. Provider will be required to attend a 2 day training program. This will be an Independent Contractor position. Immediate need and ongoing - definite potential for permanent and/or long term assignment. Candidates need to live in or close to the Detroit area.

If you have any interest in exploring, please let me know.

Thanks!
