

A forum for technological innovation and entrepreneurship

# Spring Gathering

Meet the BC-Connected Steering Committee

Thursday, June 7, 2007

6:00—8:00 p.m.

Riverfront Condominiums Project

15 Carlyle Street

Downtown Battle Creek

BC-Connected is an affinity group for emerging technology companies and provides a forum to share ideas, encourage risk taking, support innovation, and muster resources to assist in the development of this vital sector of our business community. We believe the opportunity for mutual support and understanding will help provide the environment necessary for knowledge-based businesses to grow and prosper in our community.

Join us for a "Spring Gathering" to share ideas and meet with the BC-Connected Steering Committee. We will have a brief presentation while beverages and snacks are served.

**RSVP by June 4 if you plan to attend.**
