

Music Minor

The School of Music offers a music minor for students who have a background in music and wish to continue their education in music performance, composition, jazz studies, or listening. Qualified music minors may take most of the classes offered for music majors, ***if the minor has met the prerequisites and space exists***. Those students seeking a music minor must secure a minor slip from the Music Advisor in the School of Music. Official declaration of the music minor must be made prior to registration for the final eight (8) hours of music coursework.
