

Stadium Drive Apartments

Cable Modem Package Instructions

Package Contents:

Please ensure the following items have been included in your cable modem package

-Webkit CD

-Motorola Surfboard 4100 Cable Modem

-Coaxial Cable

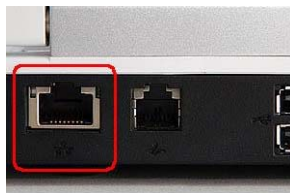

-Cable modem power adapter

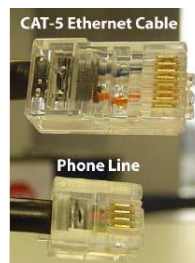

Before you begin

Please check to see if you have an Ethernet adapter port in your computer. You will also need to provide a standard CAT-5 Ethernet cable to connect your computer to the cable modem. Do not use a phone cable, please see example below. Ethernet cables may be purchased at the WMU Bookstore or any retailer where electronics are sold.

Ethernet adapter port

Installation Instructions

Please do not connect your cable modem at this time. Disconnect the cable modem from your computer if you have already connected it. The following instructions must be followed before connecting.

1. Place the Webkit CD into your CD-ROM drive
 - **If the CD does not start automatically:**
 - **For Windows:** browse to 'My Computer' and double click the 'Webkit' CD icon
 - **For MAC:** double click the 'Webkit' CD icon on the desktop, double click 'Webkit_for_Mac', then click 'Click Here to Get Started'
2. When the Webkit main menu appears click 'Get Connected'
3. Follow the remaining steps provided by the 'Get Connected' wizard to establish your connection.
