Objective

To obtain internship position in the field of Paper or Imaging Science that will utilize my technical knowledge, adaptable nature and Strong ability to work with team while contributing to the goals of company.

Education

• **‘Master of Science’ in Paper & Imaging Science and Engg.** Anticipated Graduation
Western Michigan University, Kalamazoo, MI Date: December 2008

• **Bachelor of Engg. In ‘Printing Engg. & Graphics communication’** June 2006
University of Pune ,India

Relevant Coursework

• **Undergraduate Seminar : Roll to Web Processing**

Carefully studied and researched all Paper Web handling processes on College Printing Press shop and suggested important modifications which helped to Reduce press downtime & make it safe and cost efficient. This work was presented in a seminar for academic purposes.

• **Undergraduate research project: Designing & Manufacturing of paper cleaning device**

This project was sponsored by renowned local printer. Aim was to clean the fluffy recycled paper which was resulting in poor print quality. Vacuum driven paper cleaning device was designed and manufactured to mount on web fed offset machine successfully. The product gained applause from many printing companies and is filed for a patent.

• **National level Paper presentation competition ‘Curious 2005’**

Successfully presented research paper on ‘Fingerprinting of Gravure Machine’ and bagged second prize. Carried out various experiments on Gravure press to obtain optimum results for research work.
