2023/24

Western Michigan University Health Administration Curriculum Guide

The mission of the Health Administration program is to develop innovative future leaders that will improve the health and wellbeing of the communities they serve. Our curriculum, collaboratively delivered by the College of Health and Human Services and the Haworth College of Business, is a true embodiment of the combined bodies of knowledge required for health administrators: health and management. We deliver our program through instruction by expert faculty and applied learning in the field, preparing students to either enter the workforce upon graduation or continue their studies in a health administration-related graduate program.

Western Essential Studies (WES) requirements:

- Students must fulfill the **Western Essential Studies (WES)** requirements for graduation from WMU. Please see the [WES transfer guide](#). Your community college advisor should be able to help you with this information.
