The Office of Faculty Development, EUP and OIT is proud to announce WMU’s Second Annual Teaching with Technology Symposium.

Symposium mission description:
This year’s Teaching with Technology Symposium is looking specifically at technology that takes advantage of Cloud software. Topics that may be included are educational uses of: Google Apps, Social Media, Elearning, Video Recording, and more. However, we are open to receiving applications showcasing technology at work in the classroom throughout WMU.

Paper presentations: a 30 min. paper presentation and Q&A panel.
Poster and Interactive Table Demonstration presentations: available for at least 60 min. for official presentation (The dedicated hour for presentations with open time for more Q&A.)
Working Workshops: 60 min. double-session workshops that will introduce technology and allow time for instructors to work on possible classroom uses

Please register for workshop at https://wapps.wmich.edu/workshops/

In order to be given full consideration, a completed proposal application must be completed no later than Monday, November, 24th.

Submit your application now!
