CEAS. 24-029-MAE

REQUEST TO COLLEGE CURRICULUM COMMITTEE FOR CURRICULAR IMPR	OVEMENTS
DEPARTMENT: (MAE) PROPOSED EFFECTIVE SEMESTER: Spring 2015 COLLEGE: CEAS PROPOSED IMPROVEMENTS	
Academic Program  New degree*  New major*  Substantive Course Changes  New course  Title  Description (attal	ch current & proposed) quired by others) e level
** Other:	
Title of degree, curriculum, major, minor, concentration, or certificate: BSAE	
Existing course prefix and #: (AE2610) Proposed course prefix and #: No change Credit hours: ) No change	ge
Existing course title: ) No change	
Proposed course title: ) No change	
Existing course prerequisite & co-requisite(s): ) MATH1220 or 1700  Proposed course prerequisites, connect with "and" or "or". To remove prerequisites, enter "none."  Proposed course co-requisite(s) PHYS2050  If there are multiple prerequisites, connect with "and" or "or". To remove prerequisites, enter "none."  Proposed course co-requisite(s) PHYS2050  If there are multiple corequisites, they are always joined by "and."  Proposed course prerequisite(s) that can also be taken concurrently:  Is there a minimum grade for the prerequisites or corequisites?  The default grades are D for undergraduates and C for graduates.  Major/minor or classification restrictions: No change  List the Banner 4 character codes and whether they should be included or excluded.  For 5000 level prerequisites & corequisites: Do these apply to: (circle one) undergraduates graduates  Specifications for University Schedule of Classes: No changes  a. Course title (maximum of 30 spaces): No changes  b. Multi-topic course: No Yes  c. Repeatable for credit: No Yes  d. Mandatory credit/no credit: No Yes  e. Type of class and contact hours per week (check type and indicate hours as appropriate)  1. Lecture  3. Lecture/lab/discussion  5. Independent study	both
2. ☐ Lab or discussion 4. ☐ Seminar or ☐ studio 6. ☐ Supervision or practicum

* Approve Disapprove Provost	Date

Explain briefly and clearly the proposed improvement.

Add PHYS2050 as corequisite for AE2610 (this will drop the current corequisite MATH1220 or 1700 because these are prerequisite for PHYS2050)

Rationale. Give your reason(s) for the proposed improvement. (If your proposal includes prerequisites, justify those, too.)

The core contents of AE2610 are strongly based upon introductory physics (mechanics portion) materials. Taking PHYS2050 concurrently with AE2610 will

- a. maximize the student learning on similar concepts covered in AE2610
- advance well-prepared students (those whom with successful completion of MATH1220 as it being the
  prerequisite for PHYS2050) to AE program, thus leading to a lower failure rate of the class

Incoming freshmen who concurrently taking MATH1220 are often placed in disadvantage conditions because a large portion of the class is composed of transfer students with MATH1220 and PHYS2050 already taken.

Effect on other colleges, departments or programs. If consultation with others is required, attach evidence of
consultation and support. If objections have been raised, document the resolution. Demonstrate that the program you
propose is not a duplication of an existing one.

Improve passing rate of AE2610 and benefit freshmen by preventing taking AE2610 without proper preparation

4. Effect on your department's programs. Show how the proposed change fits with other departmental offerings.

#### No effect

5. Effects on enrolled students: Are program conflicts avoided? Will your proposal make it easier or harder for students to meet graduation requirements? Can students complete the program in a reasonable time? Show that you have considered scheduling needs and demands on students' time. If a required course will be offered during summer only, provide a rationale.

#### No effect

6. Student or external market demand. What is your anticipated student audience? What evidence of student or market demand or need exists? What is the estimated enrollment? What other factors make your proposal beneficial to students?

## The audience for this course will not change as a result of this improvement.

7. Effects on resources. Explain how your proposal would affect department and University resources, including faculty, equipment, space, technology, and library holdings. Tell how you will staff additions to the program. If more advising will be needed, how will you provide for it? How often will course(s) be offered? What will be the initial one-time costs and the ongoing base-funding costs for the proposed program? (Attach additional pages, as necessary.)

#### No effect

8. General education criteria. For a general education course, indicate how this course will meet the criteria for the area or proficiency. (See the General Education Policy for descriptions of each area and proficiency and the criteria. Attach additional pages as necessary. Attach a syllabus if (a) proposing a new course, (b) requesting certification for baccalaureate-level writing, or (c) requesting reapproval of an existing course.)

#### N/A

List the learning outcomes for the proposed course or the revised or proposed major, minor, or concentration. These are the outcomes that the department will use for future assessments of the course or program.

### This change does not alter the ABET learning outcomes for this course.

10. Describe how this curriculum change is a response to assessment outcomes that are part of a departmental or college assessment plan or informal assessment activities.

# This change is in compliance with implicit ABET accreditation guidelines.

11. (Undergraduate proposals only) Describe, in detail, how this curriculum change affects transfer articulation for Michigan community colleges. For course changes, include detail on necessary changes to transfer articulation from Michigan community college courses. For new majors or minors, describe transfer guidelines to be developed with Michigan community colleges. For revisions to majors or minors, describe necessary revisions to Michigan community college guidelines. Department chairs should seek assistance from college advising directors or from the admissions office in completing this section.

Grades below a "C" are non-transferable to WMU. Thus this applies the same standards to WMU courses that we currently apply to transfer courses.
