The Department of Speech, Language and Hearing Sciences seeks Candidates for Assistant/Associate Professor of Audiology. This is a tenure-track, academic year position with an expected start date of either January 2, 2018 or August 15, 2018, depending on finalist’s availability.

Qualifications
- Doctoral degree (Ph.D.) in hearing science, audiology, or a closely related field
- Demonstrated potential to maintain an active program of scholarly productivity and to secure grant funding in an audiology/communication sciences and disorders area

Desired Qualifications
- Teaching experience at the university level
- Expertise in psychoacoustics, hearing conservation, hearing aids, and instrumentation.
- Clinical experience, CCC-A and/or state licensure or eligibility

Responsibilities
- Teach undergraduate and/or graduate courses
- Sustained productivity and growth in research and grant writing
- Participate in program coordination duties
- Supervise Au.D. student research projects and contribute to clinical aspects of the program
- Service to the Department, the University, the profession, and the community
- Contribute to an interdisciplinary environment of research, instruction, and community collaborations

The Department
Both the audiology and speech-language pathology programs are ranked in the top 50 programs nationwide. The department enrolls 24 students in the four-year doctoral (Au.D.) program in audiology, approximately 60 students in the two-year M.A. program in speech-language pathology and 100 undergraduate majors. Additionally, Western Michigan University also offers a 4 + 3 Accelerated Doctor of Audiology degree program to students interested in audiology through the Bachelor of Science in Interdisciplinary Health Services program. This mechanism enables students to take graduate level coursework in their senior year, that may be counted towards both the undergraduate and graduate degree requirements, thus saving approximately six months of graduate study relative to the current 4 + 4 model. The department also supports a minor in American Sign Language. Faculty and students in the Department of Speech, Language and Hearing Sciences are engaged in active research, classroom and clinical teaching through the on-campus Van Riper Language, Speech and Hearing Clinics, and service to the university and professions.
The department is engaged in ongoing assessment activities and strategic planning to align with the College of Health and Human Services, University and Academic Affairs strategic plans. The department is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association (ASHA). Opportunities exist for interprofessional collaborations within the college, across the university, and with the Western Michigan University School of Medicine.

**The University:** Western Michigan University is a learner centered, discovery driven and globally engaged public research university with more than 23,000 students from 100 nations around the globe. WMU has been designated by the Carnegie Foundation for the Advancement of Teaching as one of just 147 public institutions in the nation with high or very high research activity.

**Salary:** Competitive and commensurate with qualifications and experience, with an excellent benefits package.

**Expected Start Date:** January 1, 2018, or August 15, 2018, depending on selected finalist’s availability.

**Application Deadline:** Review of applications will begin September 15, 2017, and continue until position is filled.
