D. Explain briefly and clearly the proposed improvement.

1) Update the course title to reflect current leadership terms, changing it from School Finance to Strategic District Finance and Operations.

2) Update the course description to reflect current leadership language being used in the profession.

3) Remove existing prerequisite language and notes, since those are now technically called course restrictions.

4) Update restrictions to enrollment in certain graduate programs: Central office certificate (ELSC); Educational Leadership Specialist (ELDS); two Ph.D. concentrations - Educ Ldship:K12 Leadership (ELKD), EDLDShip:CAREER/TECHNICAL ED (ELTD - old code), and Educ Ldship: Workforce Ed & Development (ELWD - new code F17)

E. Rationale. Give your reason(s) for the proposed improvement. (If your proposal includes prerequisites, justify those, too.).

The updated title and course description are reflective of current terms and language used within the field. Modifying the course restrictions for this course, as well as five other courses required for Michigan's central office endorsement, is needed to ensure course restriction consistency.

F. List the student learning outcomes for the proposed course or the revised or proposed major, minor, or concentration. These are the outcomes that the department will use for future

assessments of the course or program.

The core outcomes to be assessed for this course, as part of our CAEP program accreditation, include three Educational Leadership Constituent Council (ELCC) standards: ELCC 3.1 (Candidates understand and can monitor and evaluate district management and operational systems); ELCC 3.2 (Candidates understand and can efficiently use human, fiscal, and technological resources within the district); and ELCC 3.3 (Candidates understand and can promote district-level policies and procedures that protect the welfare and safety of students and staff across the district).

G. Describe how this curriculum change is a response to student learning assessment outcomes that are part of a departmental or college assessment plan or informal assessment activities. Input obtained from students, as well as our department's principal and superintendent advisory committees, revealed the need for updated course titles and descriptions. Recent work on our accreditation report submissions also revealed some inconsistencies.

H. Effect on other colleges, departments or programs. If consultation with others is required, attach evidence of consultation and support. If objections have been raised, document the resolution. Demonstrate that the program you propose is not a duplication of an existing one. This course is only required within programs within the ELRT department. By continuing to use the same course numbers, it lessens any confusion that might arise with the title change.

I. Effect on your department's programs. Show how the proposed change fits with other departmental offerings.

This particular course, EDLD 6720, is required within our Central Office Certificate, Ed.S., and Ph.D. in Educational Leadership, K-12 and WFED concentrations. All faculty affiliated with these programs are aware of, and support, the updated title and course descriptions.

J. Effects on enrolled students: are program conflicts avoided? Will your proposal make it easier or harder for students to meet graduation requirements? Can students complete the program in a reasonable time? Show that you have considered scheduling needs and demands on students' time. If a required course will be offered during summer only, provide a rationale.

These updated title and course description changes will not impact existing students. The consistent course restrictions will make things clearer to students and staff helping student enroll for such classes.

K. Student or external market demand. What is your anticipated student audience? What evidence of student or market demand or need exists? What is the estimated enrollment? What other factors make your proposal beneficial to students?

The proposed updated title and course description changes may help in the marketing of our existing programs. There are also beneficial to students as they depict currency in the content being covered in the courses.

L. Effects on resources. Explain how your proposal would affect department and University resources, including faculty, equipment, space, technology, and library holdings. Tell how you

will staff additions to the program. If more advising will be needed, how will you provide for it? How often will course(s) be offered? What will be the initial one-time costs and the ongoing base-funding costs for the proposed program? (Attach additional pages, as necessary.) These proposed changes will not impact resources since this is an existing course.

M. With the change from General Education to WMU Essential Studies, this question is no longer used.

For courses requesting approval as a WMU Essential Studies course, a syllabus identifying the student learning outcomes and an action plan for assessing the student learning outcomes must be attached in the Banner Workflow system.

N. (Undergraduate proposals only) Describe, in detail, how this curriculum change affects transfer articulation for Michigan community colleges. For course changes, include detail on necessary changes to transfer articulation from Michigan community college courses. For new majors or minors, describe transfer guidelines to be developed with Michigan community colleges. For revisions to majors or minors, describe necessary revisions to Michigan community college guidelines. Department chairs should seek assistance from college advising directors or from the admissions office in completing this section.
