Welcome to Western Michigan University

We are proud to be a tobacco-free community, inside and out.

We appreciate your help as we ensure a healthy community for all who work at, live on, and visit our campus. We ask our community to respect this policy and respect each other.

While on campus, please refrain from using any tobacco products, including e-cigarettes and water pipes. Use of tobacco products is allowable inside enclosed personal vehicles and on city-owned sidewalks.

Visit wmich.edu/tobaccofree for more information about the policy as well as information about cessation resources and support. Language translations of this card are available.
